PROFILE

Seeking an internship in a software developer role to apply theoretical knowledge gained through academic studies while actively contributing to a dynamic team, cultivating practical skills in coding and problem-solving within a professional work environment.

PROJECTS

NxtTrendz   2024 – 2025
E-Commerce Web App (Amazon/Flipkart Clone) | React JS, JavaScript, CSS, Bootstrap, React Router, REST API, JWT, Local Storage
Built a responsive e-commerce platform with login, product listing, and product detail pages using React Router. Secured user sessions with JWT authentication and managed state using REST APIs and local storage.

NxtWatch   2024 – 2024
YouTube Clone Web App | React JS, JavaScript, CSS, Bootstrap, React Router, REST API, JWT, Local Storage
Developed a YouTube-like video platform with authentication, dynamic routing, search, and theme toggle features using React. Implemented protected routes, JWT-based login, and REST API integration with state persistence via local storage.
